special products

Legris has substantial experience in the design and manufacture of special fittings and assemblies for fluid control:

- whether developed from standard product
- or developed hand-in-hand with customers

Our aim is to design, develop and put into series production products or assemblies which give our customers a "profit" in terms of:

- competitive pricing
- technical excellence
- compact size, etc.

Manifold with push-to-connect parts for oil distribution.

LF3000® multi-connector for compact installations.

Instant fitting with special seal, for low pressure circuits.

LF3000® instant fittings for connection with close hole centers.

Technical tubes (crystal polyurethane and colorless nylon) marked with a band to allow identification of fluids.

Preassembled polyurethane tubing with 16 outlets for quick installation in many profiles.

Nylon recoil tubing allowing 3 assemblies in compact spaces for high flexibility.

Ball valve handle shape allows manipulation with one hand.
